"I'm happy to endorse Kango with my SELPA and school district colleagues. Kango was quick to take on the East San Gabriel Valley SELPA's alternate transportation needs when we faced a driver shortage at the start of the year. Since then, Kango has become our primary provider of alternate transportation providing rides across our 10 member school districts and non-public schools outside of the SELPA boundaries. Kango has made a commitment to continuous improvement with a focus on student safety, high-quality and reliable service, and competitive pricing. We look forward to continuing our work with Kango and providing optimal service for all schools and families."
